Title: Policy for Parking at UUCLV

## Policy for Parking at UUCLV

All vehicle attending church related functions at UUCLV will park in designated parking lanes in our church parking lot. No cars are permitted to park along the east wall of the lot. Parking on the back lawn is prohibited. Overflow parking will be permitted on both sides of Clifford Avenue, just west of the church. Visitor parking is located at three sites at the front of the building and handicapped parking is located on five sites on the east and north parking ends of the lot.

Parking in the church parking lot is reserved for vehicles operators who are attending a church related function. Other vehicles are subject to towing by Quality Towing services. Tow away signs are visible on both the east wall, as well as two walls on the church building. Efforts will be made to place a violation tag on illegal vehicles as a warning. Repeated violations may result in towing away the vehicle.
